Berti und seine Brüder 1

Band 1 - Die Schokoladenkugel des Bösen

Berti and his Brothers - The Chocolate Ball of Evil

Berti comes in like a wrecking ball!

Sibling fun somewhere between the Herdmanns and Troublemaker Street: Life really isn't easy for five-year-old Berti. He has not one, but three big brothers – and all of them are at least twice as old as him! So it's no wonder they only ever see him as the baby who's never allowed to join in their games. After all, as superheroes, they are constantly busy saving the world every day. It's just a pity that their heroic deeds always land them in such a mess that they have to be saved themselves – by Berti, of all people!

- Superheroes are a top topic at the moment and here it's spiced with plenty of humour and a host of hilarious illustrations, so just right for the young target group
- Ideal for reading aloud: a book brimming with mischief that will have parents and children in stitches
