## Kühle Pfötchen für Piet

### *Cool Little Paws For Piet*

Discover nature right from the cradle with Peter and Piet

A new forest adventure by renowned author Peter Wohlleben and his daughter. Goodness, it's hot! Peter the Forester and Piet the Squirrel are sweating buckets outside the forester's lodge. While Peter has a refreshing ice-cream, the squirrel scuttles off to find a cooler place. On the way, Piet encounters a host of other animals, who describe what they do when they are too hot. The frog leaps into the cold water; the wild boar wallows in a muddy puddle; and the grasshopper hides in the shade of a blade of grass. These tips are no help to Piet, though. Eventually the squirrel reaches the old beech forest. It's so pleasantly cool there... Piet absolutely has to tell his friend Peter about it.

Lift-the-flap book includes fascinating facts about the forest.

**Peter Wohlleben**

Peter Wohlleben was born in 1964 in Bonn, Germany. From an early age he wanted to become a conservationist. He studied forestry and worked for over twenty years for the state forestry commission in Rhineland-Palatinate. Wanting to remain true to his ecological principles, he gave up his job and today runs an environmentally-friendly municipal woodland area in the Eifel region. His work centres on the preservation of the old forests, and he offers courses in survival training as well as camps for building log cabins. He has been a guest on various TV shows, gives talks and seminars and is a successful author of books on topics relating to forests and nature conservation.
